

Opportunities in Cancer Prevention and Control Research

Postdoctoral Fellow Position Available

Request for Applications

Washington University School of Medicine is seeking applications for **Postdoctoral Fellowships in Cancer Prevention and Control**. We are particularly interested in candidates with an interest in shared decision making, health communication, dissemination and implementation science and/or cancer disparities. However, all applications will be considered. Salary is competitive and commensurate with experience. **The deadline to submit your application for 2019-2020 is May 2019, but applications will be considered on a rolling basis.**

Eligibility:

PhD, DrPH, MD, or other doctoral degree in a public health related discipline, such as Health Policy, Bioethics, Epidemiology, Psychology, Medical Anthropology, Health Communication, Health Education, or a related field.

A strong mentoring and career development program is in place in the Division of Public Health Sciences with a track record of successfully placing trainees. The Division of Public Health Sciences conducts world-leading research, education and outreach to prevent cancer and other diseases, promote population health, and improve quality and access to health care in Missouri and beyond.

The division is led by Graham Colditz, MD, DrPH, An internationally recognized leader in cancer prevention. Our vibrant group of

multidisciplinary faculty conducts research on a wide range of health issues, and there are opportunities to collaborate with clinical, basic science, statistical, and other faculty across the academic campuses of Washington University.

Washington University offers excellent benefits and competitive salaries. Support for tuition, books, software and conference travel is available.

Benefits

- Diverse faculty and transdisciplinary environment
- Trainees linked with a mentoring team
- Support for further training and professional development
- Competitive salary and benefits
- Two years of support, possible third year
- Funding is possible through a T32 grant from the NCI
